AW1516 - SUMMER 16 CAPSULE

Basquesse is a brand that caters to women from both hemispheres, hence we present two opposite seasons at once.

This is a small capsule of the AW1516 and SS16 collections.

Miss-Sass and Miss-Chief are the embodiment of what all vibrant women are at heart, no matter the number of their age.

They are uninhibited, free, daring and love to have fun. When Sass and Mischief are together, there will be heads turned and stories to tell for sure.

Miss-Sass and Miss-Chief get out to an afternoon frolick in Sydney's waterfront.

They explore the area, being spotted and admired by many, not only for their beauty but for their sense of style.

They go back to their abode to get dressed for a cocktail party, only to find they parked their car in the wrong place, finding it smashed by a large rock.

Needless to say, Miss-Sass attacks the rock in fury whilst Miss-Chief wonders what to do.

Their car became a sculpture in The Rocks - Sydney, Miss- Sass and Miss-Chief continue at large creating all sorts of fun around town.
